

## **REACH Declaration for substance of very High concern:**

REACH stands for: Registration, Evaluation, Authorization and Restriction of Chemical substances. The REACH regulation (EF nb. 1907/2006) was put into force 1. June 2007.

Regulation (EU) No 1907/2006 concerns the registration, evaluation, authorisation, and restriction of chemical substances. It also contains requirements addressed to the users of chemicals, unlike previous legislation. In addition, REACH Annex XVII contains a large number of prohibitions and restrictions on use of Chemical in articles.

<https://echa.europa.eu/da/substances-restricted-under-reach> [echa.europa.eu]

VOLA declares that all components supplied by VOLA do not contain substances listed on the REACH SVHC Candidate list in a concentration above 0.1% weight by weight (w/w), except for lead CAS No. 7439-92-1.

Products or components consisting wholly or partly of brass typically contain more than 0.1% by weight of lead with CAS No. 7439-92-1

<https://echa.europa.eu/da/candidate-list-table>

VOLA use hexavalent chromium in the manufacturing process of chrome plated products, but the finished product contains less than 0,1% of weight

Brass with lead in a concentration above 0.1% weight is never used in components in contact with drinking water.

All products from VOLA, which are intended for drinking water, are regularly tested and approved for drinking water by the Danish authorities.

## **RoHS Declaration.**

This declaration is based on information's provided from our suppliers and is considered accurate to the best of our knowledge.

RoHS (2011/65 and 2015/863):

RoHS stands for Restriction of Hazardous Substances and impacts the entire electronic industry and many electrical products as well. All applicable products in the EU market since July 1, 2006 must pass RoHS compliance.

VOLA declares the following for articles and/or products supplied by VOLA.

The part(s)/product(s) delivered do not contain any of the below substances above the maximum concentration values identified in Annex II of the RoHS Directive (2011/65/EU) and 2015/863, unless using an exemption as those listed in Annex III and IV, which can be viewed here:

<https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX:32011L0065>

Quantity limit: 0.1 % of weight (1000ppm) of any homogeneous material:

- Lead (Pb) (0,1%)
- Mercury (Hg) (0,1%)
- Hexavalent Chromium (Cr VI) (0,1%)
- Polybrominated Biphenyls (PBB) (0,1%)
- Polybrominated Diphenyl Ethers (PBDE) (0,1%)
- Bis(2-ethylhexyl) phthalate (DEHP) (0.1 %)
- Butyl benzyl phthalate (BBP) (0.1 %)
- Dibutyl phthalate (DBP) (0.1 %)
- Diisobutyl phthalate (DIBP) (0.1 %)

Quantity limit: 0.01 % of weight (100 ppm) of any 'homogeneous material:

Cadmium (Cd)

The amount of Lead exceeds the allowable limit for substances, but RoHS exemption 6C Category 11 is applicable for VOLA products.
